Goals: I produce this diagram to help with awareness that Power BI can be used a lot of ways. The diagram doesn't include every possible item, but I try to include the most important items.

Use the diagram to:

- Notice some aspects that you may not be aware of, and inspire you to learn more about them.
- Talk with coworkers about what's involved with the Power BI ecosystem.
- Dispel the notion that Power BI is "just" a reporting tool.
- Consider if you're planning and managing the Power BI ecosystem sufficiently.
